(*) Burst tests details:

	Specified requirement	Obtained value
burst pressure	> 105 bar	144,9 bar
Mode of failure	The burst occurred in an angular direction, at 1,12 m from end B.	

All manufacturing activities and performance tests were witnessed by one ABS Surveyor.

All Flexomarine's certificates mentioned above and attached to this report have been reviewed and signed by the undersigned ABS Surveyor

Notes:

1. For particulars of the test results, refer to the attached manufacturer's test certificates.
2. W= Witnessed tests/activities

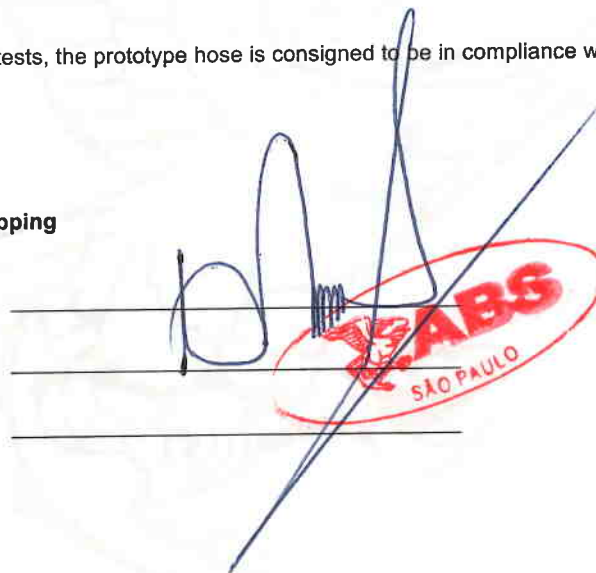

Based on the satisfactory results of the above tests, the prototype hose is consigned to be in compliance with GMPHOM 2009 requirements.
